Chairman Message

The global economy is recovering at the moment. As a developing country, Thailand has to rapidly recover its internal economy to keep up with the world economy. Private business sector has become a mechanism to drive the economy forward after the crisis.

Strategies that the organizations are utilizing – ranging from marketing strategies, employee development, and quality refinement – have been continuously scrutinized to provide competitive advantages. In the same way, players in event business are justifying their strategies to seize market share and retain their valuable customers. As a chairman of CMO Group (CM Organizer PLC.), I perceive determination in developing and organizing distinguished events. Furthermore, high potential of employees and world-class innovative technologies can undoubtedly maintain and assure company's position as a market leader in Thailand's event industry.

On behalf of CMO Group, I would like to express my sincere gratitude to our valuable shareholders, customers, and business partners for your steadfast trust and collaboration. I am also thankful to all CMO staffs, who have put all of their efforts to create remarkable events and maintain positive relationship with our customers. From now on, CMO Group is ready to offer the best service and continuously develop our potentials, so we all can grow up and success together.

Sincerely yours,

Ratanavudh Vajarodaya

Chairman

CMO Group (CM Organizer PLC.)

Group CEO Message

The political crisis during mid 2010 economically affected wide range of businesses, including event organizer. Therefore, we necessarily have to be prepared to confront and cope with such issues minute by minute. In doing so, we have improved our marketing plan, adjusted management strategies, and developed professional skills on our crews so they could accomplish the goals although unexpected situations arise.

The mitigation of political crises brought the event business back to normality. As the satiations cooled down, CMO Group speeded up to strengthen its business units and organized high-quality events, resulting in our constant profit growth. Furthermore, numbers of upcoming 'mega events' at the end of 2011 could illustrate growth potential of the industry and ensure its bright future.

In addition, CMO Group has invested in developing innovative technologies to empower and create outstanding events. As a member of Thai society and a member of CSR Club under Thai Listed Company Association, we are committed to be a conscious organization. At this stage, we are implementing 'green event' policy, encouraging our employees to be mindful of the environment, safety, and morality.

With strong determination and collaboration of crews and subsidiaries, CMO Group has overcome political crisis and rapidly recovered during the end of 2010. I am certain that CMO Group is an organization with utmost potential to move forward sustainably. With the power of creativity, management strategy and employee development, it is indisputable that CMO Group will remain its leading position in national event industry in the long run.

Sincerely yours,
Sermkhun Kunawong
Group Chief Executive Officer

Competitive environment and competitive strategy and Future Competition

1) Competitive environment and competitive strategy

1.1) Competitive environment and competitive strategy in Creative and Organizer Management Services

In the first half of 2010, this was an uncertainty in politic crisis together with world economic crisis which was not alleviating as many one anticipated. Most of business sector was decelerated their activities, campaign including with scale down their currently event. These situations were effected to company as well.

Therefore, competition in event business in 2010 was even more intense because of economic and political problem. Most of customer reduced and became more conservative in their budget. Customers invited many suppliers to join in one bidding, reflecting in high competition to get a job. The Company has a strategy to satisfy and keep customer especially in high purchasing power customers who required excellent and accurate service. The Company, as a leading event organizer, has long term credibility and is one of the complete event organizer who can satisfy customers need that made the Company to get customers' event continually.

For government sector, the Company has a policy to be an event counselor for customer that help the Company to get a database and create more chance to win a government event. The Company also has a strategy to diversify and balance the company's event product in order to minimize business risk.

1.2) Competitive Environment in the Equipment Rental Business & Competitive Advantage of PM Center

Although a lot of Equipment Service Business exists in Thailand, but when compared with demand, it is not satisfy customer need. The competition in equipment service business is not intense due to the limitation of high technology equipment and there are a few companies that have total solution equipments. However, many new players in the market have started to find their outstanding points and more combination between the equipment and state of the art technology. Besides, more facilities are provided to the equipment users so that they can be less dependent on expertise of technicians. Moreover, the time required for set-up and dismantling can be shortened. Such fact can be applied to decorative equipment, stage and comprehensive light and sound equipment, as well as new and rapidly developed series of projector equipment. Therefore, to maintain its competitive advantage, PM is aware of the importance in arranging modern equipment in response to the customer demand and changing technology. PM also provides new equipment to the customers continuously. It has attempted to find the most updated equipment and their corresponding technology. Exhibitions are held to display the potential of equipment and presentation of the equipment that has been developed to the customers in the Open House event. Besides, the Company also arranges an operating unit responsible for maintaining the equipment to always be in a ready-to-use mode. Additionally, staffs with knowledge and skills in providing equipment services together with the total solution of equipments are one of the key factors that keep PM to retain its competitive advantage. At the moment, PM is therefore accepted by the Company's customers as well as its competitors as the providers of exhibition and presentation equipment services, which include Pro Image, Pro Lighting, Pro Audio and Pro Effect equipment.

1.3) Competitive Environment in the Presentation Media Service and Competitive Advantage of the Eyes

The presentation media operators also exist abundantly in Thailand, but most of them are expert in only one or two areas of media presentation. Only a few of them, including The Eyes, is able to provide a turnkey services targeting at several segments of the audience. These services cover the access to various target groups, conducting systematic activities, as well as being widely accepted from people in the field. To maintain competitive advantage, the Eyes emphasized on offering fully equipped media presentation services which include video, multimedia, computer graphic, and multi-video presentation suitable for the customers wants, in compliance with the technology trend at a reasonable price. In addition, The Eyes is willing to provide advice and services to the customers with more convenience. Its staff and customer service personnel are responsible for responding to customer requirement with more care. Its strategy in building close customer relationship will bring about trust and more purchase.

2) Industrial Trend and Future Competition

In the year 2010, Thailand still faced political turmoil and effected by world financial crisis continuously caused all business were in difficult situation. These factors effected directly to event management business, a main business of CMO Group.

In 2011, resulting from economic promoting event of government sector and sales increasing campaign of private sector such as trade exhibition and sale exposition will raise the high tense of competition among event organizer. It is predicted that automobile sector, one of the most continuously spending sector in event will keep spend their money on roadshow to stimulate sale and brand awareness. Especially this time, the green energy concept is in social mindfulness.

Government sector will also take an important role as a major spending sector in event business, continuously from 2010. Government sector's event will focus in economic promoting event in tourism, trade and country image. Especially in 2011, Thailand has many big national event such as BOT Fair and Royal Flora which many government department and private business have to participate with. Then, the competition in government sector market will be among big leading event companies due to constrain of selection criteria and capital. The high standard organizer will have advantage to take new opportunity.

The company, as a leading event organizer with prominent credit from many national and international events throughout 20 years operating, is confident that the company will be the leading event company and will be able to keep our customers and generate revenue continuously.

Risk from inconsistency of the client companies' plans for marketing activities

Marketing events, sales promotion, public relations and other image enhancing events are all additional activities or additional communicating tools for marketing that can be organized along with the traditional marketing tools such as advertisement. These activities are, therefore, supplementary activities for the clients' business. Consequently, the Company's event management can easily be affected by the change of customer requirement, such as the policy change from foreign head office in terms of content and budget, the product change, the budget change, the postponement of event schedule, etc. Such changes may affect the revenue and performance of the Company and its affiliations.

However, since the Company has been in the business continuously for over a decade, it has customer base comprising both government and private sectors conducting various types of business and has strong policy to acquire new customers. These clients have more tendency to organize events for their marketing, public relations and sales promotion purposes in order to communicate directly to their target consumers.

In addition, the Company also has another progressive management policy by establishing the strategy for managing its own event activities. Therefore, it is possible to forecast the target and implementation of such events, as well as to promote the brand of events in order to create good reputation and trustworthiness, as well as the interest in such events in the following years for more stable future. This will also result in more revenue from supporters of existing events as well as the potentially well -known branded events in the future.

Actually, the Company has tried to maintain the customer base in attempt to expand the revenue from each of the clients. This is indicated from the fact that the staff has put their best efforts in the work, and tried to expand the clients' successful performance in order to maintain continuous flow of work. A specific business unit is established to take care and provide services to the customers closely. All recommendations are accepted for improvement. And most importantly, the clients' budget will be worth utilized in accordance with their objectives. Moreover, the efficiency of performance must be measurable in order to achieve maximum quality.

1) Risk from economic instability and the change of government policy that may affect the Event Management Business

Event Management business is connected to and related with advertisement and public relations business that directly ties in with the overall economic situation of the country. The public spending and general business survival are essential factor for product or service owners in considering the use of any kinds of advertisement or public relations, which include exhibition as a marketing tool for sales promotion.

When people in the country, ranging from business sectors at the level of consumer product operators to the high impact level such as energy, are substantially sensitive to political situation, the business operation is therefore directly affected by overall political and economic movements such as political stability, political

rally, economic policy. These factors affect the consideration on roles of advertising, public relations, and budget for organizing event activities, not to mention various project policies that are established and supported directly from the government and jointly promoted by the private sector. Examples are gigantic projects of event organizations, such as the country's public relation projects for tourism purpose or international conference

Nevertheless, the Company has always been well prepared for such cases. The Company attempts to allocate the management to avoid overly reliance on certain parties, either from government or private sector. The company revenue come from different customers, not depending on or influenced by any customer. It also tries to maintain the balance of income generating operations with maximum prudence, apart from establishing the policy to depend on its own work. Moreover, there is also a policy to go for foreign market with regards to international conferences and receptions to create stability and to avoid being overly dependent on domestic operation.

2) Risk from market entering of the new operators, and from the adjustment of the clients and adjustment of the advertising firms into the Event market

Event Management market becomes well-known and has increasing market value yearly, not to mention its attractive revenue. Therefore, considerable number of operators, including those previously relating to the business, which are advertising agencies, media, or television programs and public relation companies, begin to adjust themselves and find ways to create more revenue from event management market. These operators attempt to focus on their existing strength, as well as to incorporate the business of event management into their operation. However, despite the attempt to create more selling points to increase revenue, the expertise in event management depends on experience and specific skills. Although these companies try to establish the Event Management division, or use other methods of marketing, the expertise of existing personnel is still not able to respond to the client needs. Moreover, they are not able to organize the events with equitable standard when compared to the companies with direct experience in this field. Nevertheless, the growth trend of these companies in the event market still creates pressure and results in more aggressive competition in the industry.

Additionally, the event market also involves the movement of previous operators or clients who have accumulated their experience and learned about the event management from our Company or other event management companies. Therefore, these operators or clients are able to adjust themselves, and learn to organize the events without depending upon the direct event management companies in some cases. Therefore, the Event industry not only confronts with higher competition, but it also needs to adjust itself, as well as to maintain and improve its quality. At the same time, it is also necessary to obtain client acceptance from successful performance and to continuously develop its potential to the greatest extent.

The Company has developed and promoted the quality of event management by accepting new technology that is suitable for organizing the events. Our staffs are assigned to take good care of the clients

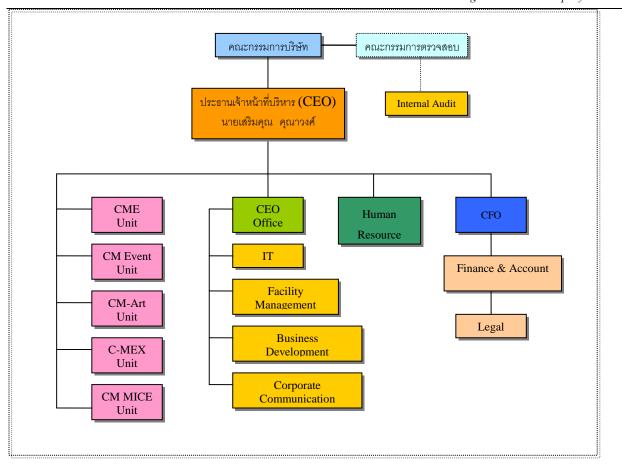

closely, and are able to create high quality events with new concepts that are always beneficial for the business of the Company. Examples include the attempt to find new joint ventures to enhance the potential of the Company or to find new marketing tools to continuously reinforce the Company's business units. Moreover, the company takes advantage in the company's strength by expanding business into potential international market to reduce the risks.

Section 5 – Responsibilities of the Committee

The company's board of directors consists of members with such qualities as leadership, vision, experiences, and expertise in required fields to facilitate the company operation and to best benefit the shareholders.

1. Structure of the Board of Directors

- The board of directors is composed of six directors, three of which are independent directors. The number of the independent directors counts more than 1/3 of the overall directors in accordance with the standard set by the Stock Exchange of Thailand. The chairman of the board is an independent director who has no connection with the executive body and is not the same person with the Chief Executive Officer. Policies for company operation is set by the executive body, which consists of 7 executive officers, to ensure that business planning and decision making are appropriate and are not controlled by only one person or one group of persons.
- In every annual general shareholder meeting, 1/3 or nearest 1/3 of directors will vacate the office. In the 1st and 2nd year after company's registered date, the directors will vacate the office by drawing of lots. After that, the longest term directors will vacate the office respectively.

- The board sets a policy to disclose information on the appointment of each director to shareholders in the annual report.
- For balance of administration, the board has clearly assigned the power of the chairperson of the board and the Managing Director (Chief Executive Officer). The chairperson of the board is not the same person with the Managing Director.
- The board has selected independent directors, who are not the company employees, to hold the position of chairperson of the board.
- The Chief Financial Officer acts as the company's secretary, who provides suggestions about laws and regulations that the committee needs to know and comply with.

2. Subcommittee

• The company's board of directors has appointed an audit committee according to regulations set by the Stock Exchange of Thailand. This subcommittee consists of three independent directors who are not the company's executives or employees. These independent directors will supervise the operation and responsibilities of the audit committee.

3. Roles, Duties, and Responsibilities of the Board of Directors

- The board will consider and provide opinions and recommendations concerning important issues of the company. It will also supervise and ensure that the executive body is able to achieve the goals under the established strategies, work plans, and annual budget.
- The board will use the code of ethics as its guideline and operate honestly, fairly, and morally to achieved the defined intent.
- The company has a policy to avoid connected transactions or any transactions that may cause conflict of interest. However, in the event of a connected transaction, the company has assigned relevant divisions to gather information relating to such connected transaction to present to the audit committee who will consider and present the opinions concerning such matter to the board of directors and the shareholders for approval. The stakeholders of such matter will not be allowed to make an approval vote to ensure that the company complied with the regulations of the Stock Exchange of Thailand and Securities and Exchange Commission.
- The board will hold responsible for the company's financial statement and information, which will appear in the annual report. Such financial statement is prepared under the accounting standard accepted nationwide. Appropriate accounting policy will be selected. Preparation of the financial statement will be performed in a regular and careful manner. Sufficient information will be disclosed in the notes to the financial statements.
- The board has a strict control and supervision of financial transactions and compliance with rules and regulations through the audit committee and internal audit unit of the company. The responsibilities of the audit committee include the following:
 - O Review of the internal control system.

- Review and consideration of the financial statement.
- O Company's compliance with the Securities and Exchange Act, the rules and regulations of the Stock Exchange of Thailand as well as other related laws.
- O Selection and appointment of external auditor as well as report preparation of the audit committee and disclosure in the annual report.

4. Meeting of the Committees

- The company has followed the Public Company Limited Act, which requires the board of directors to hold at least one meeting every three months. The board has prepared the meeting in advance and called for additional meeting as necessary. In 2010, there were 6 meetings of the board of directors. The secretary informed the directors in advance of the meeting and sent them the meeting agendas and documents. During the meeting, each director was allowed to freely express his/her opinions. The secretary was the one recording the meeting and prepared the minutes.
- The audit committee meets at least once every three months. In 2010, there were 4 meetings. An internal auditor acted as the secretary of the audit committee and prepared the minutes. At least one week before the meeting, the secretary would inform the committee members of the meeting and send them agendas and supporting documents. In the event that there was an agenda in which the audit committee needed to consider the financial statement, certified public accounts, and the Chief Financial Officer would be invited to attend the meeting in order to give the meeting their opinions towards the financial statement.

5. Remuneration

• Currently, the Remuneration Committee is not established in the company. However, the board of directors carefully considers and transparently sets a policy on remuneration of the board directors. Such remuneration is in the same level as that offered by other companies in the industry and good enough to attract and keep qualified directors. For the executives, their remuneration is in compliance with the principles and policies established by the committee, which is in connection with the operational results of the company and the performance of each executive.

6. Development of the Committee Members and the Executives

• The company promotes the training and education for those related to supervision of the company's business operation, including the executives, secretaries, and internal audit unit, for improvement of their performance. Related persons are encouraged to participate in the training arranged by the Stock Exchange of Thailand or relevant associations.

The internal control and audit

The company has an Audit Committee which independently performs duties and responsibilities in accordance with the Audit Committee Charter. Operation of the Audit Committee is consistent with the regulations of the Stock Exchange of Thailand and Securities and Exchange Commission. In the opinion of the Audit Committee, the company has a good business supervision system in accordance with the corporate governance principles and appropriate and sufficient internal control system. The internal control system has presented no transactions that essentially affected the company.

Internal Control

CMO Group has designed and developed its internal control system in efficiency and effectiveness, which consists of internal environment, risk management and continuous monitoring. The organization chart has been determined appropriately with the business plan and business environment. Each department has its responsibilities and can be independently verified each other. The company recruits, adopts, and hires staff based on qualifications, experience, and competence for suitable positions. As a result, the company assures that the internal control system is efficient and suitable practices with current business circumstances and also complies with a good corporate governance policy.

Internal Audit

By using the internal audit department as a tool, the Audit Committee performs independently on reviewing and evaluating the sufficiency of the internal control system as well as considering all reports directly from the internal auditor. Consequently, the internal control system can be assured that it has efficient and suitable practices with current business circumstances as well as the company complies with the Securities and Exchange Act, the rules and regulations of the Stock Exchange of Thailand as well as other related laws. Furthermore, the Audit Committee performs duties to review the quarterly and annual financial statements and also connected transactions between the company and its subsidiaries and related parties to ensure that the company has a good corporate governance.

The Policy of Dividend Contribution

The company's policy is to contribute the dividend to shareholders not less than 40 percent of the net profit (after the company's income tax has been cleared and legally reserved). Anyhow, this completely depends on economic situation, the proceedings of the company and future projects of the company. "PM" and "The Eyes" both share a policy of dividend contribution. Both companies contribute the dividend to shareholders not less than 40 per cent of the net profit (after the company's income tax has been cleared and legally reserved). Anyhow, this completely depends on economic situation, the proceedings of the company and future projects of each company.

Steps of the Approval for the Corresponded Listing

The company or the chain group will have a corresponded listing with other entrepreneurs whom may have a beneficial conflict. To do so, they will need an approval from the committee of the company or shareholders beforehand. However, it depends on the proportion that has been set by the Stock Exchange of Thailand. If there is any conflict that involves with the gain and loss, or with the benefit of the company, the committee who has the gain and loss in such matters will not have the right to cast the vote in any circumstances. This process will not be authorized if the assigned person is able to approve the list, in which may have caused any conflict to the company or the chain group. Common business is an exception. It will also be called an exception if the process is going along with the resolution of the company's committee that the independent director joined in, or if the consideration is clearly narrowed down.

Policy of Future Corresponded Listing

The Audit Committee and the company will handle the corresponded listing, which may be taken in the future. They will check if the list is reasonable and should be approved through its course, along with the announcement of the Stock Exchange of Thailand. The corresponded listing will be clearly revealed.

Auditor's Report

To the Shareholders and the Board of Directors

of CM Organizer Public Company Limited and its subsidiaries and joint venture:

I have audited the consolidated and separate balance sheets as at December 31, 2010, and the related consolidated and separate statement of income, consolidated and separate statement of changes in shareholders' equity and consolidated and separate statement of cash flows for the year then ended of CM Organizer Public Company Limited and its subsidiaries and joint venture, and of CM Organizer Public Company Limited, respectively. The Company's management is responsible for the correctness and completeness of information presented in these financial statements. My responsibility is to express an opinion on these financial statements based on my audit. The consolidated and separate financial statements of CM Organizer Public Company Limited and its subsidiaries and joint venture and of CM Organizer Public Company Limited for the year ended December 31, 2009 were audited by another auditor of my office whose report dated February 26, 2010, expressed an unqualified opinion and had emphasis paragraph on unbilled receivable in the governmental sector on those statements.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the consolidated and separate financial statements referred to above present fairly, in all material respects, the consolidation and separate financial positions as at December 31, 2010 and the consolidation and separate results of operations and cash flows for the year then ended of CM Organizer Public Company Limited and its subsidiaries and joint venture, and of CM Organizer Public Company Limited, respectively, in accordance with generally accepted accounting principles.

Without qualify my review report, I draw your attention to Note 9 of the financial statements. As at December 31, 2010, the Company has a unbilled receivable in the governmental sector in amount of Baht 128.48 million (Outstanding over 12 months as of December 31, 2010). The debtor claimed that the services already performed by the Company are less than the contracted value by Baht 52.51 million. The Company is in the litigation process with the debtor. Presently, the process is under the court of first instance. The Company's lawyer has an opinion that the chance that the company will win the case and be able to receive full amount of debt including the interest is high. The management believes that the Company will be ultimately able to process the case without material damage to the company.

CM ORGANIZER PUBLIC COMPANY LIMITED AND SUBSIDIARIES AND JOINT VENTURE ${\tt NOTES\ TO\ FINANCIAL\ STATEMENTS}$

CM ORGANIZER PUBLIC COMPANY LIMITED AND SUBSIDIARIES AND JOINT VENTURE NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

1. GENERAL INFORMATION

CM Organizer Public Company Limited ("the Company") was incorporated under Thai laws on June 5, 1991, and was subsequently transformed from a juristic person under the Civil and Commercial code as "a Company Limited" to be a juristic person under the Public Company Limited Act B.E. 2535 on December 29, 2003. The Company's primary business is event management for public events, exhibitions and entertainment activities. The Company's registered office is located at 1471 Soi Ladprao 94, Ladprao Rd., Plubpla, Wangthanglang, Bangkok.

2. BASIS FOR PRESENTATION OF THE FINANCIAL STATEMENTS AND CONSOLIDATED FINANCIAL STATEMENTS

The financial statements are prepared in accordance with Thai Accounting Standards ("TAS") including related interpretations and guidelines promulgated by the Federation of Accounting Professions ("FAP"), applicable rules and regulations of the Securities and Exchange Commission and with generally accepted accounting principles in Thailand.

The presentation of the financial statements has been made in compliance with the stipulations of the Notification of the Department of Business Development dated January 30, 2009, issued under the Accounting Act B.E. 2543.

They are prepared on the historical cost basis, except as disclosed in respective accounting policies.

As required by Thai law and regulatory requirements, the Company's financial statements have been prepared in the Thai language. They have been translated into English for the convenience of the reader.

The preparation of financial statements in conformity with TAS requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Therefore, actual result may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

The consolidated financial statements consist of accounting transactions of the Company and its subsidiaries and joint venture after eliminating significant intercompany transactions and balances. The Company's shareholding in subsidiaries and joint venture as at December 31, 2010 and 2009, are as follows:

Pursuant to the meeting of the Board of Directors of CM Organizer Public Company Limited No.7/2009 held on September 11, 2009, the meeting approved to close the business of Bayon CM Organizer Company Limited, doing the Light & Sound Show in Cambodia, due to the continuity in its loss in operation. An allowance for doubtful account had been fully booked in financial statements; therefore, there will be no affect to the financial statements.

Pursuant to the meeting of the Board of Directors of CM Organizer Public Company Limited No.6/2009 held on August 13, 2009, the meeting approved to close the business of CMO-KWCP Company Limited, doing the Karaoke Singing Contest. This is due to its operation did not achieve the Company's plan and its license for the Karaoke Contest was expired. At present, CMO-KWCP does not run any business, and for the purpose of cost reduction, the Board resolved to close down CMO-KWCP Company Limited.

The financial statements of the subsidiary company incorporated overseas are translated into Thai Baht at the closing average exchange rate for assets and liabilities and at the monthly average exchange rate applying during the

period for revenues and expenses. The differences have been shown under the caption of "Translation adjustment" in the shareholders' equity.

The financial statements of Exposition Technology Co., Ltd. are included in the consolidated financial statements even though the Company's shareholding is 40 percent. This is because the Company has control over its financial and operating policies, and it is therefore regarded as a subsidiary company.

Adoption of new accounting standards

During 2010, the Federation of Accounting Professions has issued a Notification, re-numbering of the following Thai Accounting Standards ("TAS") as follows:

Adoption of new and revised Thai Accounting Standards, Thai Financial Reporting Standards and Thai Financial Reporting Interpretation

During 2010, the Federation of Accounting Professions has issued Notifications, mandating the use of new and revised Framework for the Preparation and Presentation of Financial Statements, Thai Accounting Standards (TAS), Thai Financial Reporting Standards (TFRS) and Thai Financial Reporting Interpretation (TFRI) as follows:

- a) Framework for the Preparation and Presentation of Financial Statements (revised 2009) which is immediately effective for the current year. The management of the Company has assessed the effects of this framework and believes that it does not have any significant impact on the financial statements for the current year.
- b) TAS, TFRS and TFRI which are effective for the financial statements for the period beginning on or after January 1, 2011 of totaling 28 standards.

| TAS/TFRS/TFRI | Торіс |

| TFRS 5 (revised 2009) | Non-current Assets Held for sale and Discontinued Operations |
| TFRS 6 | Exploration for and Evaluation of Mineral Resources |
| TFRI 15 | Agreements for the Construction of Real Estate |

The management of the Company has assessed the effects of these TAS, TFRS and TFRI, and believes that they will not have any significant impact on the financial statements for the year in which they are initially applied except for TAS as follows:

TAS 19 – Employee Benefits

TAS 19 includes the requirements to recognize and measure employee benefits costs of post-employment benefits under defined benefit plans, other long-term employee benefits and termination benefits in the period

in which the service is performed. The requirements require actuarial assumptions to measure the obligation and expense. Moreover, the obligations are measured on a discounted basis using the Projected Unit Credit Method because they may be settled many years after the employees render the related service.

Presently, the management of the Company is assessing the impact of this standard on the financial statements for the year in which it is initially applied.

TAS which are effective for the financial statements for the period beginning on or after January 1, 2013 are as follows:

TAS Topic

TAS 12 Income Taxes

TAS 20 (revised 2009) Accounting for Government Grants and Disclosures of Government Assistance

TAS 21 (revised 2009) The Effects of Changes in Foreign Exchange Rate

The management of the Company is assessing the impacts of these standards on the financial statements for the year in which they are initially applied.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenues and Expenses Recognitions

Revenues and expenses are recognized on an accrual basis.

Revenues from event management of public shows, exhibitions and entertainment events are recognized when the services are completed. Revenues from completed service but unbilled has presented in unbilled receivable which included in trade accounts receivable.

Revenues from decoration construction are recognized based on the percentage of completion computing on the proportion of actual cost incurred compared to the estimated total cost. Uninvoiced income is presented as unbilled receivable included as part of account receivable while the respective cost is presented in statement of income.

Revenues from rental of Image, Lighting, and Sound, and Effect techniques equipment are recognized when the services are completed.

Revenues from the production of slide, multivision, video, multimedia and computer graphics are recognized when the productions are delivered to the customers.

Revenues from service of music and artist management are recognized when the services are completed.

Cost of uncompleted jobs or undelivered jobs are recorded as work in process.

Cash and Cash Equivalents

Cash and cash equivalents presented in the statements of cash flows, comprise of cash in hand, deposits at financial institutions with a maturity period not over 3 months except for cash at bank held as collateral.

Allowance for Doubtful Accounts

The Company and subsidiaries provide an allowance for doubtful accounts equal to the estimated uncollectible amount which is based on collection experience and analysis of the current status of individual receivables.

Work in process and supplies

Cost of work, which is not yet recognized as revenues, is recorded in work in process using the invoiced value after discounting.

Supplies are stated at cost by using First-in, First-out method.

Investment in subsidiaries, associated company and joint venture

Investments in associated company and joint venture are presented in the consolidated financial statements by using the equity method.

Investments in subsidiaries, associated company and joint venture are presented in the separate financial statements by using the cost method, and adjusted impairment, if any.

The Company presented the outstanding balance of the negative goodwill arisen from the acquisition of the investment in a subsidiary company as "Discount on Investment" shown under the shareholders' equity. This will be recognized in the statement of income when the investment is disposed.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and impairment loss from assets (if any).

Depreciation is computed by the straight-line method based on the estimated useful lives of the assets as follows:

| | Years |
|--|---------------------------------------|
| Buildings | 20 |
| Building improvements | 5 |
| Building and equipment on leased space | The remaining lease term of 21 months |
| Operating equipment | 3, 5 |
| Office equipment | 3, 5 |
| Furniture and fixtures | 5 |
| Vehicles | 5 |

Financial lease agreements

The Company and the subsidiaries record operating equipment and vehicle under financial leases as assets and liabilities in their balance sheets at amounts equal to the fair value of the leased assets at the inception of the lease or, if lower, at the present value of the minimum lease payments. In calculating the present value of the minimum lease payments, the discount factor is the interest rate implicit in the lease. Interest expense is allocated to periods during the lease term according to the remaining balance of the liability for each period.

Transactions in Foreign Currencies

Foreign currency transactions are translated into Baht at the exchange rates ruling on the transaction dates. Monetary assets and liabilities denominated in foreign currencies outstanding at the balance sheet dates are translated into Baht at the exchange rates ruling on the balance sheet dates. Gain or losses on exchange rates are recognized as income or expenses for the year.

Employee benefits

Salary, wages, bonuses and contributions to the social security fund and provident fund are recognized as expenses when incurred.

Provisions

Provisions are recognized when the Company has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Corporate Income Tax

Income tax for the year is calculated from the net profit for the year adjusted by non-deductible expenses or non-taxable income and multiplied by the income tax rate stipulated by the Revenue Code.

Basic Earning (Loss) per Share

Basic earning (loss) per share is computed by dividing the net profit (loss) for the year by the weighted average number of issued and paid-up common shares during the year.

Financial instruments

The Company has no policy to speculate in or engage in the trading of any financial derivative instruments.

4. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles at times requires management to make subjective judgments and estimates regarding matters that are inherently uncertain. These judgments and estimates affect reported amounts and disclosures and actual results could differ. Significant judgments and estimates are as follows:

Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management needs to make judgment and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Allowance for diminution in value of inventory

The determination of allowances for diminution in the value of inventory, requires management to make judgments and estimates. The allowance for decline in net realizable value is estimated based on the selling price expected in the ordinary course of business; and provision for obsolete, slow-moving and deteriorated inventories, that is estimated based on the approximate useful life of each type of inventory.

Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgment regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Property plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and salvage values of the Company's plant and equipment and to review estimate useful lives and salvage values when there are any changes.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses in the period when it is determined that their recoverable amount is lower than the carrying amount. This requires judgments regarding forecast of future revenues and expenses relating to the assets subject to the review.

Goodwill

The initial recognition and measurement of goodwill, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

5. RELATED PARTY TRANSACTIONS

The Company had business transactions with related parties. These parties are directly and indirectly related through common shareholding and/or directorship. The financial statements reflect the effects of these transactions on the basis determined by the Company and the parties concerned. For the years ended December 31, 2010 and 2009, the significant transactions with related parties can be summarized as follows:

19. FINANCIAL INSTRUMENTS

Financial Risk Management

The Company and the subsidiaries are exposed to risks from changes in market interest rates, and from nonperformance of contractual obligations by counterparties. The Company and its subsidiaries do not use derivative instruments to manage such risks. They do not hold or issue derivative instruments for speculative or trading purposes.

Interest rate risk

The interest rate risk is the risk that future movements in market interest rates will affect the results of the Company's and its subsidiary's operations and cash flows. The Company's and its subsidiary's exposure to interest rate risk relates primarily to its deposits with and loans from financial institutions, and short-term loans from related parties.

Since the majority of these financial assets and liabilities are short-term and long-term loans bear floating interest rate, the Company and its subsidiaries believe that there will be no material impact on the Company and its subsidiaries' financial statements.

Exchange rate risk

The Company has no transactions in foreign currencies, therefore, there is no exchange rate risk.

Credit Risk

The Company and its subsidiaries are exposed to credit risk primarily with respect to trade accounts receivable including the related company receivables. However, due to the large number of entities comprising the Company's and its subsidiaries customer base, the Company and its subsidiaries do not anticipate material losses from their debt collections, except the risk of the receivable in the government sector which the Company is in dispute resolution (Note 9).

Fair Value

As the majority of financial assets and liabilities are short-term and long-term loans bear floating interest rate, the Company's and the subsidiaries' management believe that their carrying values of financial assets and liabilities do not materially differ from their fair value.

20. COMMITMENTS AND CONTINGENT LIABILITIES

As at December 31, 2010 and 2009, the Company and the subsidiaries have contingent liabilities in relation to the letters of guarantee issued by banks amounting to approximately Baht 55 million and Baht 71 million, respectively.

As at December 31, 2010, the Company has a rental agreement for the space in order to carry the business under the name "Ratchaprasong Urban Spaces" for the period from April 1, 2010 to September 30, 2012. The Company is committed to pay for the rental space at the fix rate of Baht 700,000 per month and pay the revenue sharing at the rate stipulated in the agreement computed from the revenue earned.

As at December 31, 2010, the Company has a construction agreement for the project "Ratchaprasong Urban Spaces" of Baht 16.43 million and a design and installation of infrastructure agreement of Baht 9.57 million of which an amount of Baht 19.53 million has been paid.

21. PROVIDENT FUND

The Company and subsidiaries and their employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2552. Both employees and the Company contribute to the fund monthly at the rate of 3% of salary. The fund, which is managed by TISCO Asset Management Company Limited, will be paid to employees upon termination in accordance with the fund rules. Total contributions by the Company and subsidiaries for the year ended December 31, 2010 amounted to approximately Baht 2.98 million.

22. RECLASSIFICATION OF ACCOUNTS

The Company has reclassified certain accounts in the balance sheet as at December 31, 2009 and the statements of income for the year ended December 31, 2009 to conform to the presentation of the financial statements of this year as follow:

Attachment 3. Report of the Audit Committee 2010

Report of the Audit Committee 2010

The Board of Directors of CM Organizer Public Company Limited appointed an Audit Committee comprising of three independent directors who are not the company's executives or employees. All directors are well-qualified persons in terms of the requirement of the SEC. The list of their names is as follows:

Assoc. Prof. Joompol Rodcumdee Chairman

Mr. Anant Gatepithaya Member

Mr. Ratanavudh Vajarodaya Member

All audit committee members have knowledge, expertise and experience in the fields of mass communications, business administration, and finance. The secretary of the Audit Committee is Mr. Vuttiphan Tanamentanont.

During 2010, the Audit Committee members performed duties and responsibilities in accordance with the Audit Committee Charter. We were responsible for review of financial transactions to ensure compliance with accounting standards and disclosure of sufficient information. In addition, we ensured that the company had an appropriately efficient internal control system and considered a disclosure of information concerning the connected transactions. Operation of the Audit Committee was consistent with the guideline of the Stock Exchange of Thailand.

In the year 2010, the committee held four meetings and the attendance of the Audit Committee members was 92%. Each meeting included the external auditors, the Chief Financial Officer, and the internal auditor. Essences of the meetings are presented below.

1. Reviewed the quarterly and annual financial statements of CM Organizer Public Company Limited as well as the consolidated financial statements of CMO with CMO management. External auditors were invited to attend the meetings in order to give their opinions. Such the financial statements show financial status and operation result correctly and in consistence with the generally accepted accounting principles. Information significant to the financial statements has been disclosed in the notes to the financial statements to submit to the company's committee for approval before filing with the Stock Exchange of Thailand and the Securities and Exchange Commission.

CMO

2. Approved the internal audit plan and reviewed the performance of the auditing unit in terms of operation, report of the audit results, and monitoring including provided

recommendations for efficient and effective practices.

3. Reviewed and evaluated the sufficiency of the internal control system as well as

considered all reports of the internal audit in order to assure that the internal control

system was efficient and suitable practices with current business circumstances and

ensure that the company complied with the Securities and Exchange Act, the rules and

regulations of the Stock Exchange of Thailand as well as other related laws.

4. Supported a good corporate governance policy by assigning delegates to attend the

Principles of good corporate governance conference.

5. Considered and approved connected transactions between the company or its

subsidiaries and related parties to ensure that the company complied with the

regulations of the Stock Exchange of Thailand and Securities and Exchange

Commission.

6. Assessed the company's risk and reported to the Board of Directors for necessary

actions.

7. Considered, selected, submitted, and appointed the company's auditor for the year

2011. The selected auditor is ANS Audit Co., Ltd. Result of the selection will be submitted

to the meeting of the shareholders.

The Audit Committee regularly submitted all minutes of the meetings to the Board of Directors. In

the opinion of the Audit Committee, during the year 2010 the company has had a good business

supervision system in accordance with the corporate governance principles and appropriate and

sufficient internal control system. The internal control system has presented no transactions that

essentially affected the company. Results have been reported to the company's committee.

On behalf of the Audit Committee

Assoc. Prof. Joompol Rodcumdee

Chairman, Audit Committee
